EQUIPMENT
AN NBE COMPANY

Serving Texas, Arkansas, Oklahoma, Louisiana, New Mexico and Northern Mexico

Injection Technology

ARBURG

Arburg ALLROUNDER injection molding machines. Sizes from 15 – 730 tons, hydraulic, all-electric, hybrid & vertical machines.

Reiloy USA
REIFENHÄUSER GRUPPE

Barrels, screws and end cap accessories for injection molding machines.

UBE
UBE MACHINERY INC.

UBE large injection molding machines. Sizes from 650-5500 tons, all-electric, servo-hydraulic and 2-platen machines.

Auxiliary Solutions

State-of-the art drying technology. Portable & central dryers, material vacuum conveying systems, resin blenders, extrusion pullers, cutters, water baths & coils

Market leader in process cooling equipment. Water temperature control units, portable & central chillers, evaporative cooling towers & hot oil units

Automation for the plastics industry. Sprue pickers, servo robots, side entry robots & robots for vertical molding machines

Extrusion Technology

Standard and custom single screw extruders. Feed screws, extrusion systems and specialized turnkey systems for medical tubing, laboratory, narrow web, wire, cable, pipe, tubing and profile systems

Size-reductions solutions in the global plastics market. Beside-the-press granulators, central granulators & scrap shredders

Complete line of shredders for plastics and recycling. Film, fiber and pipe shredding

World's leading supplier of temperature and sequential valve gate control systems. Makers of LEC, G24 & TTC controllers

Installation Services provided by:

Industrial Fabrication Contractors, Inc.

Founded in 2004 by former Rubbermaid technical services team members with 60 years of combined experience. Since then, IFC has earned a reputation for safety, attention to detail and high quality craftsmanship in every installation and fabrication project they perform.

Starlinger

Recycling solutions for a variety of plastics. recoSTAR line for reprocessing plastic scrap, film, fibers & washed post-consumer waste

MAC

AUTOMATION CONCEPTS

Part handling solutions. Conveyors, box-fill systems, robot guarding, clean room enclosures, automatic part sorting, inspection/work tables & part containment products

Machines and systems for the detection/separation of contaminants, for product inspection, and for the sorting of material flows for plastics
